TEST DOCUMENTATION

Media Organiser – Unit Testing
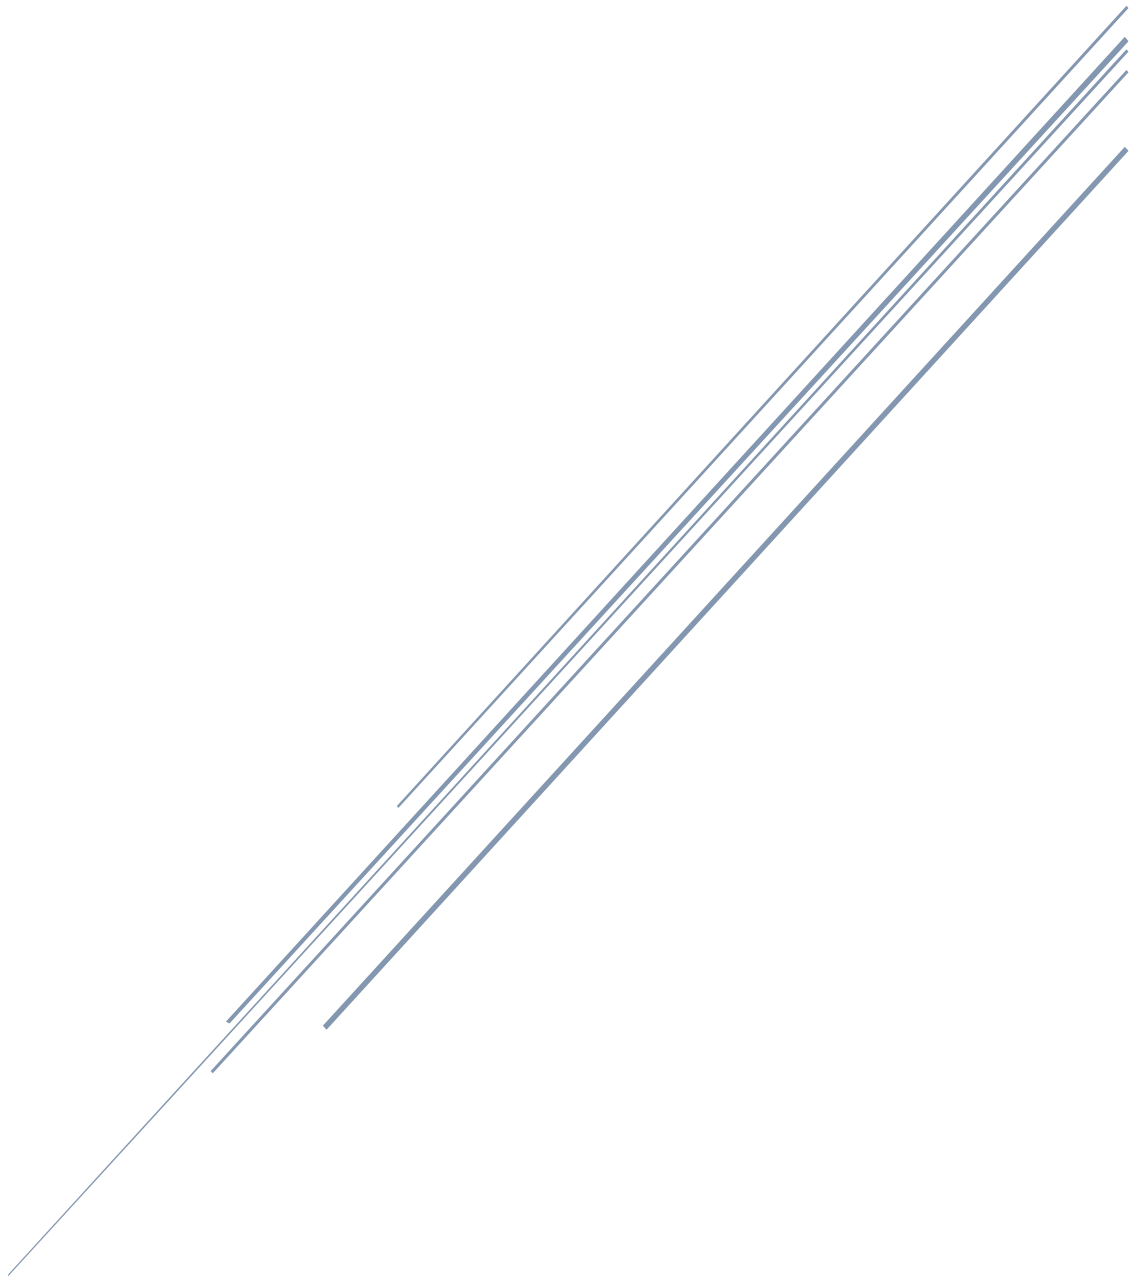

Created By: Thomas Scott

Table of Contents

Introduction

The following test report is produced for the purpose of unit testing. On the Media Organiser Web application.

Purpose

The following test was done as part of the QA process for testing the Media Organiser. It is to ensure all tested features are working as expected and are ready for production.

The intended audience for this document is the QA test lead and the client.

Test Summary

The unit test(s) to be carried out on the Media Organiser application;

Test Case	Test Activity	Planned Start Date	Actual Start Date	Planned End Date	Actual Start Date
Case 1	Adding a file to the database.	10/01/2019	10/01/2019	10/01/2019	10/01/2019
Case 2	Deleting Files from the database.	10/01/2019	10/01/2019	11/01/2019	10/01/2019
Case 3	Editing file names within the database.	11/01/2019	10/01/2019	11/01/2019	10/01/2019

Test Results

The following table shows the results of the corresponding test case(s);

Test Case	Tests Run	Tests Passed	Tests Failed	Defects
Case 1	30	30	0	None
Case 2	30	30	0	None
Case 3	30	30	0	None

Outstanding Defects

Were any defects outstanding during the test cases run?

Defect ID	Description	Severity	Update	Status	Risk
N/A					

Test Environment

The environment(s) used for testing on the Media Organiser are as follows;

Application	Environment
Google Chrome	http://localhost:8080/media_organiser/index.php

Exit Criteria

Were the exit criteria for this test met?

Criteria	Outcome	Comments
No outstanding defects.	Met	Complete
All tests have been fully executed.	Met	Complete

Test Conclusion

From the testing done I can conclude that all criteria were met with outstanding results. The application is working as expected and no defects were found during the tests carried out.
